Dear Jason;

Thank you and your team for an amazing job that you did on our house renovation. This was the second time that we hired A.F. & Sons to work with us on our home improvements which in itself says a lot for your firm. It was a pleasure to work with you as you handled the job most professionally and helped us make good decisions in the process.

We are getting so many complements on our new house as you took a 35 year old Out-of-date house and turned it into a brand new home. In my line of business I see many renovations and this one deserves much kudos to you and your firm.

The job was completed in a timely fashion and within our budgetary constraints. We appreciate your quick response to our many questions and changes along the way.

Thank you again for everything. We feel totally confident in recommending you and A.F. & Sons to our friends and associates for any of their home renovations. Please feel free to use us as a reference.

Best regards,
