February 2007

To Whom it May Concern:

After the flood in April 2007, the Scarsdale Teen Center was faced with a major renovation project. We chose AF & Sons because of their excellent reputation in the community for the quality of their work. They met and exceeded their reputation. Not only was their work impeccable, but they completed our renovation under a very tight timeline.

As general maintenance issues of our facility arise, AF & Sons continues to meet our needs and exceed our expectations with the quality and speed of their work. It was a pleasure working with Greg, Francis and the AF & Sons team.

Sincerely,

Jessica Edelman, Director
